

**NIST Weights and Measures Division (WMD)  
on the  
Development of Commercial Hydrogen Measurement Standards**

**NHFCCSCC July 6, 2011**

by Juana Williams

**(1) U.S. Weights and Measures Standards Development Process**

***Commercial Device Type Evaluation Criteria***

The NCWM NTETC-Measuring Sector Subgroup met on June 16, 2011 to continue work on the development of a draft Hydrogen Gas-Measuring Devices Checklist. The group will hold its next web/teleconference meeting on July 7, 2011. The group remains on schedule for developing a final draft of the checklist for comment and review by the USNWG in late July 2011.
