

# WG 2: Containers - Hydrides

---

- ✓ Working Group focused on developing component standard, and working through DOT regulations.
- ✓ Working group meeting this afternoon.
- ✓ Chairman: Bill Summers

# WG 2: Path Forward

---

- ✓ White paper for DOT issues
  - work with a service to walk thru the process?
- ✓ draft component standard
  - Likely ISO TC 197 work item, once the WG completes scope, purpose, and outline
  - Need to collect manufacturers test procedures
    - ID acceptable risks - which tests are important?
    - How do we get this data without compromising first-to-market objectives/proprietary issues
