Wake Up to Hydrogen.

NHA Hydrogen Education Workshop
September 21 and 22, from 6:30 - 7:30 a.m.
Breakfast will be served!

Want to know more about hydrogen? The NHA has been educating Codes and Standards officials, the media, and the public since 1989. Join us for two morning workshops on hydrogen's properties and uses as an energy carrier. Seating is limited, so set your alarm and plan to attend!

Thursday, September 21, in the *Coronado M* room

Indoor Hydrogen Fueling Safety - *Tom Joseph, Air Products*

Fueling Stations: Liquid Hydrogen Storage - *Pete Steiner, Air Products*

Hydrogen Use for Telecommunications - *Paul Buehler, Plug Power*

Friday, September 22, in the *Coronado N* room

Hydrogen Fueling Pump Safety: Overpressure Protection - *Mike Short, UTC Power*

Fueling Stations: Liquid Hydrogen Storage - *Pete Steiner, Air Products*

Breakfast will be served, but seating is limited: so plan to attend!
